English

PROFILE

I am a self-driven and self-taught person. I have participated in hackathons where I have ranked among the top. My main focus is frontend development, but I also have knowledge in backend.

EMPLOYMENT HISTORY

Full Stack at Freelance, Cancún Quintana Roo

February 2022 — November 2022

I was responsible for conducting the entire logistics analysis to create the database and, from there, continue with the development of the back-end and front-end. Additionally, I handled the creation of the development and production environments, as well as cloud security.

Frontend developer at Trip now, Cancún Quintana Roo

March 2023 — October 2023

I refactored and optimized the front-end code, updated the frameworks to the latest versions, and resolved the tickets assigned to me.

Frontend developer at Hiplot, Cancún Quintana Roo

November 2023 — Present

I lead the front-end development of the company's internal projects.

EDUCATION

Contaduría, Universidad Tecnológica de Cancún, Cancún Quintana Roo

November 2019 — March 2023

Ingeniería en sistemas computacionales, Universidad Tecnológica Latinoamericana en Línea, Calz. de la Naranja 159, Alce Blanco, 53370 Naucalpan de Juárez, Méx.

July 2022 — June 2023

I was unable to complete university due to a lack of time, so I decided to focus on specializing in web development. I chose to take diplomas and courses on online platforms.
